

TELECOM ADVISORS INTERNATIONAL S.A. ENTERS PARTNERSHIP WITH ASIA-PACIFIC BASED OPRAXE INTERNATIONAL

Sydney – November 2006 - Telecom Advisors International S.A., a leading supplier of Enterprise Telecom Services and Solutions, today announced a Reseller partnership with Opraxe International to strengthen their global coverage. Based in Sydney, Australia, Opraxe International engages with clients around Asia-Pacific region in strategising, defining and implementing high performing business solutions based on world class partner solutions including Business Support Systems, Data Warehousing/Business Intelligence systems and Customer Management Systems.

Malcolm Logan, Chief Executive Officer at Opraxe International says, "The dynamics of the Communications & Media industry are unmatched by any other industry segment. Organisations of all sizes are prioritising activities around business process improvement and operational efficiencies as well as performing in-depth data analysis and building behavioural based analytical environments in order to differentiate and succeed. This is only possible with a solid foundation of operational and business systems in place that provide not only the operational data required, but also support the ongoing provision and management of products and services to the marketplace. Successful organisations are at the forefront in implementing world class OSS, BSS, Security and Mobile business systems and we welcome the opportunity to partner with Telecom Advisors International S.A. in bringing such applications to these organisations."

Andreas Wunderli, CEO of Telecom Advisors International S.A., states: "TelecomAdvisors is proud to have Opraxe International as its new Value Added Reseller and Partner, representing part of its portfolio for the first time in Australia, New Zealand and South East Asia. We are convinced that this new partnership confirms the right selection of innovative and "state of the art" OSS, BSS and Security solutions that bring real scale of economy and optimisation of resources to our prime customers, Telecom Operators and Big Enterprises, within a very short term.
